PRESSURE ON NEGRO COUNCILMEN

Urge Stronger Stand In Garbagemen's Strike

A Councilman elected from the Negro district made this statement the other day: "Negroes in the lower South get to cut whether they want to in the City.Councilman on Negroes by Negroes." It is rumoured that the Negroes are about to be given a better deal in a City.Councilman on Negroes by Negroes. The Negroes are demanding higher wages and better working conditions. Some of them are already beginning to think about joining the Garbagemen's Strike. The Mayor and City Council have not yet officially declared their attitude on the Garbagemen's Strike, but many of the Negroes believe that the Mayor and City Council will not do anything to help the Garbagemen. The Negroes are waiting to hear what the Mayor and City Council will do before deciding whether or not to join the Garbagemen's Strike.

One of the striking garbage men is making this statement: "Rats and cats eat better than we do. They don't have to worry about paying rent, buying food, and keeping the house clean. We have to work hard all day and still starve."

Many of the residents are starting to complain, but the city officials are not doing anything to help. The strike is likely to continue for some time, and the city is in great need of a solution.

Your professional beautician knows the answer...

Is peroxide needed to color unwanted gray hair?

Your color and beauty experts know that the first sign of gray hair means many things. It can mean the loss of color after chemical processing, or make the skin look older and more wrinkled. If you are concerned about using permanent peroxide, you should consult with a professional beautician who will help you choose the right product for your needs.

Health Department: The importance of the first sign of gray hair is not fully understood. Some experts believe that peroxide is necessary, while others think that it can be avoided by using natural hair color products. It is important to talk to your beautician about your specific needs and to decide together on the best course of action.
