AND NOW COMES APRIL...SPRINGY BLISS

And now comes April...springy bliss...After many a dreary, dreary winter, every soul is delighted with the sudden turn of the weather...The sun is shining, the birds are singing, and all nature seems to rejoice. This is a time to be out and about, to enjoy the beauty of the season. The air is fresh, the flowers are blooming, and the world is alive with hope. This is the time of renewal, of new beginnings, of fresh starts. It is a time to be grateful, to be happy, to be alive. This is the time of April, the time of new beginnings. It is a time to be determined, to be strong, to be resilient. It is a time to be grateful, to be happy, to be alive.

Why does some hair break off when combing?

Hair is a complex keratin fiber that grows from the scalp. It is composed of protein and other substances. Hair can break off when combing due to a variety of reasons, such as improper brushing techniques, frizzing, and even stress. To prevent hair breakage, it is important to use a gentle combing technique and to avoid excessive friction or tension on the hair. There are also products available that can help reduce breakage and improve the overall health of the hair.

Bobby Unser Might Have Finally
Found His Winning Formula

By WILLIAM VERDAN

NEW YORK—(AP) — Bobby
Unser might have finally
found his winning formula,
with a victory in the
recent Detroit Grand Prix.

The victory comes

success. "It's a new

The race was

He's been entered in
