THILD CH NEWS September 7, 1968 Nixon-Agnew Citizen Group To Recruit 5 Million Voters

United Citizens for Nixon-Agnew recently promised "a unique campaign that will restore a clear rapport between the American peo-ple and the nation's political lead-

Chairman Charles S. Rhyne declared, "Throughout the four years of the Johnson-Humphrey Administration Americans have been lectured, not heeded. They now are demanding and deserve to have their ideas heard. We are mobilizing five million independents and Democrats as United Citizens for Nixon-Agnew with exactly this idea in mind."

Noting that more than one milvion volunteers already have been recruited for the campaign, Rhyne predicted United Citizens for Nixon-Agnew will be the largest citizens' organization in American political history.

"We are going to be working everywhere — from county fairs to college campuses, from midwestern farms to big city ghettos," he said. Foremost among the organiza-

tion's plans for a "voter particielection campaign is a pation' unique program called "Taxon This permits voters to Listens. voice their ideas and questions directly to Dick Nixon and Ted Agnew. "Their views are tape recorded and then sent directly the candidates," Rhyne explained "This new idea of using electronics to provide a direct line to the candidates is proving enorm-ously popular. The 14 "listen-ins" held before the Republican National Convention drew such thusiastic response that Dick Nixon wants us to expand the program to 1.000 cities before elec-

tion day." As its headquarters for its fivemillion volunteers across the nation, United Citizens for Nixon-Agnew has leased the historic Willard Hotel in Washington, D. C.

"The Willard Hotel was an appropriate choice," Rhyne said.
"Two Presidents — Lincoln and Coolidge - lived there. Others were frequent visitors."

United Citizens for Nixon began its activities last May — earlier than any other general election campaign in political history. "The precious post-convention

campaign time which is normally spent recruiting leaders and plan ning board programs is actually behind us," Rhyne said "Twentyfour national occupational and professional committees will be announced shortly with 10,000 prominent Americans of all political persuasions as leaders and members many as 50 such committees will be formed."

All 50 states are represented on the committees — which range from Doctors and Lawyers to Ambassadors and Athletes for Nixon-Agnew. Emphasizing the non-partisan nature of the committees Rhyne pointed out that nine of the co-chairmen of the Lawyers for Nixon-Agnew Committee are regis-

remnessee State Library

Dr. Harry V. Richardson is retiring as president of the Interdenominational Theological Center, it was learned Wadn day. The retirement becomes effective Aug. 31. Official announcement of Dr. foreign counries, and that one

Richardson's retirement is expecteo to be made within the next two days by Dr. Henry Van Dusen chairman of the board of directors. Dr. Van Dusen, who is president emiritus of Union Theological Seminary in New York City, said the board has reluctantly conceeded to Dr. Richardson's persona! desire to retire.

A special committee of the trustee board headed by Bishop B. Julian Smith has been conferring everal months considering a list of candidates to succeed Dr. Richardson, a reliable source said. Meanwhile Dr. Oswald P. Bronson, presenly ITC vice president,

been chosen to serve as president during the interim period, it was learned.

The retirement of Dr. Richardon, a native of Jackssonville, Fa., will end an illustrious career in religious and civic work. He has headed the Interdenominational Theological Center since its bein 1958. Under his administration ITC has become the most unique school of religion in the country.

One of his greatest personal achievements was to bring ITC to its present status and reputation, not cnly as an interdenominational school of religion AME, CME, Baptist and Methodists "but interracia and international."

Prior to assuming the holm at ITC. Dr. Richardson served as president of the Gammon Theological Seminary located on the old Clark College campus. He came to Gammon after serving 16 years as chaplain at Tuskegee Inst., where the chapel was noted as one of the most outstanding pupits in the South Dr. Richardson wil continue to

serve ITC in various capacities after becoming president emeritus. One of his assignments will be as director of a national convocation on church and violence in the nation slated for next year. He will also involve himself in fund-raisng drives for the center. The renown churchman calls his years at ITC the most rewarding

in his life. He said the school has made tremendous prograss and will make greater progress in the futre. "The International Theological Center is growing in student body,

resources, and quality in its facul asserted the retiring president. Its graduates are serving with distinction in many fields in all parts of the world. He noted that one-tenth of its studens come from

half of all Negro candidates for the ministry metriculate at TIC.

"But my retirement will give me the opportunity to do some much needed writing and continue my service in religious and civic affairs" he lamented.

Dr. Richardson is a native of Jacksonville, Fla., where he required his elementary education. He completed undergraduate stud Western Reserve in Cleveland, and earned a Masters degree from Har-vard Divinity School in Cambridge, Mass. He received the Ph. D degree

from Drew University.
In 1937 he married the former
Miss Selma White also of Jacksonville

Dr. Richardson was a to the World Council of churches in 1956 an dagain in 1961, and now serves on the board of direc-tors of the Georgia Council of Churches. He is the first Negro elected president of the George Council of Churches, beving se ed two terms.

The Nomination Of Vice-**President Hubert Humphrey**

The nomination of Vice-President Hubert H. Humphrey as the Democrat Party's presidential candidate, instead of one of the other three candidates, means essentially that the Democrat ticket will be associated with all of the glaring inadequacies of the Johnson-Humphrey Administration.

The mistakes of the past administration relative to a weak policy on the war in Vietnam, rising inflation, the increasing crime rate etc., will return with the nomination of Vice President Humphrey to the advantage of the opposition

The fact that President Johnson has bowed out of the presidential race also augers badly for the Democrat Party candidates and puts the Democrat nominee on the defensive.

carrying a good number of southern states.

The disorder at the convention and the division over the Vietnam plank are further proof, if any more proof is needed, of an obvious lack of unity in the ranks of the Democrat party

This lack of unity was further manifested in the dissent pervading the Georgia delegation—the Negro delegates unwillingness to follow Gov. Lester Maddox to the convention and the constraining "unit rule" which obligates all delegates to vote as a whole on the basis of a bare majority opinion. The unit rule leaves no room for individual dissent.

But it is gratifying to know that the convention went on record as eliminating the unit rule at this and future conventions. mittee. "You can't win unless you The nomination of the Vice President was considered fairly, believe you can." certain since he had the support of President Johnson.

An interesting fact about the nomination of Mr. Humphrey Is, he, like his opponent Republican Richard Nixon, received the support of most of the Southern delegates.

A Youth Employment Project

The NAACP is to be praised for its selection of Atlanta as one of the 10 cities in which to establish a Youth Employment

Purpose of the project is to develop a youth organized and operated employment service which will aid youth in securing ISSUUES APPEAL significant employment.

MEP will, first of all, inventory those youth-oriented employment programs already established within a specific geographical location. This will help determine what service is being offered, to what specific group it is being directed, and what are the measurable results of these programs.

Secondly, YEP will find out exactly what employment opportunities are available to youth on the open market. Local employers, large and small, will be contacted to discover both short term and long range positions.

A line of communication will be established between employers and project leaders so that interested persons may be

continually informed of openings as they develop. Thirdly, a list of those youth who are interested in employ-

ment and those who are not will be established. No testing will be done by the project. The NAACP deserves the commendation of all citizens who

are compassionately concerned about the employment opportunities for Atlanta youth. We hope the project will soon get under-

The Unit Rule Goes

The Unit Rule of voting at the Democrat National Convention has been discarded. But this undemocratic rule did not go until after a motion by the Texas delegation failed in a roll call vote to preserve this 100-year practice by some state delegations.

This action is certainly commendable and represents a remaval of another barrier to individual expression of conviction.

Georgia has operated under the Unit Rule for years with the governor of the state and the chairman of the Democrat party handpicking the delegates. And the irony of what happened in Chicago on this issue is the fact that Georgia under the Uhit Rule gave her entire 43 votes to preserve this method of voting. Georgia's 43 votes included the votes of Senator Leroy Jahnson and the other two Negro delegates who were associated with the Maddox-led group.

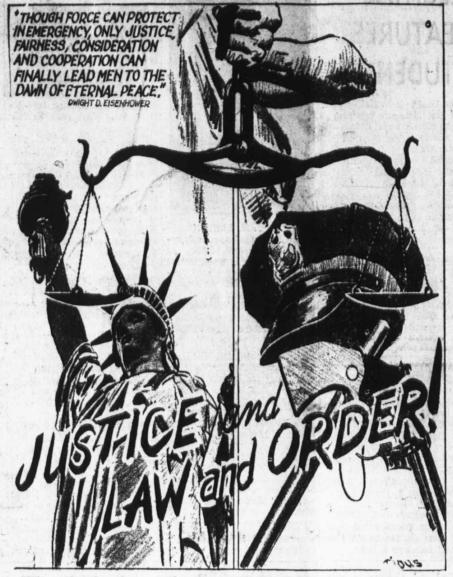

The fact that Negroes would be in the position of being voted against their interest under the Unit Rule is one of the main reasons that the Atlanta NAACP tried to persuade them to withdraw from the Maddox group and join with the Forum group which was headed by Rep. Julian Bond and others. However, we are glad that this archaic rule has been eliminated.

Humphrey chose Lawrence F. O'Brien, a skilled political strate-gist for John F. Kennedy and Lyndon B. Johnson, to manage his campaign before flying home to Waverly, Minn., for a rest and talk with his running mate, Sen. Edmund S. Muskie of Maine.

The magnitude of Humphrey's task in healing party wounds opened in the divisive Democratic National Convention was reflected in his reminder that some Democrats - even on the National Committee - believed the Huphrey -Muskie ticket was doomed to defeat in the November 5 election.

To this, he told the committee something that promises to become a thee in his appeals for support from the rebellious McCarthy faction of theparty:

"Ask yourself whether America would be a better place to live if the Republicans win."

Humphrey said he had not worked all his political life to become a Presidential candidate and then be a loser.

Your professional beauticing knows the answer...

Why does some hair break off when combing?

Your hair is precious and wellcare ... and none of us like to see It break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But heir that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the sheft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol Hair-So-New spray-on creme rinse. For co ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.

Housing Project Hailed By NAACP As Big Victory

NEWBURGH N. Y. - The New burgh City Council's approval of the development of a public housing site for 100 poor families has been hailed by the local NAACP as a "resounding victory" for this city's 8,000 Negroes.

With one member absent, the Council voted approval 4-0. Aug. 12, of the New York State Urban Development Corporation's plan to develop a 78-acre Lake Street site which would include commercial recreational and industrial uses in addition to the public housing

Samuel A. T. Hodge, president of the Newburgh Branch of the NAACP, noted that the Council action marked the success of a 13year campaign to obtain a suitable public housing site for some of the poor families displaced by this city's massive downtown urban renewal program. He continued This is the first time in the history of the town that black people, through the NAACP, or any other organization, have been able to stand toe to toe with the power structure and score a resounding victory."

Mr. Hodge aid that the turning point in the campaign came last month when the NAACP requested Gov Nelson Rockefeller to author ize the State Urban Development Corp. to bypass the City Council and develop the vacant city-owned Lake Street property. The UDC is a multi-billion dollar agency cre-ated at the Governor's beliest this year to redevelop blighted areas in the cities of New York State,

Mr. Hodge also credited the Chamber of Commerce, the Newburgh Now Committee, and the lo cal news media for joining the NAACP in this year's campaign. These groups successfully reversed the Council's decision to build the 100-unit project in a dense commercial area already containing 125 low income apartments. The Council plan had been condemned by Mr. Hodge as "a plan for an in-stant ghetto."

At NAACP headquarters in New York City, Jerry M. Guess, New York-New England regional director, said that Newburgh was only one of a number of cities in which the NAACP is conducting housing campaigns for Negroes. Other target cities are New York, Poughkeepsie, Albany and the Long Is-

Grambling Football To Be **Entertaining And Assertive**

After three straight Southwestern the Tigers could learn about the hard facts of life but den't bet on it.

In some quarters, Grambling aptentative and unsure in peared early March. Elsewhere, observers were of the opinion that Coach Eddie Robinson would step up the time schedule and transform his underlings into championship potential before mid-September. He usually does. Robinson was adamant about

one thing: "It doesn't seers to be optimistic. It's good for business. Almost everyone agrees that the Grambling coaching staff is making a special concession to immediacy, and under such circumstances it is suicide to play the Tigers in emplete limbo.

Gains substantially outweigh lesses at most positions, but a demanding schedule will turn the heat on early. Even with game-togame improvement, the team is not likely to catch last years 2-1 standard, which included a 29-25 victory over Florida A & M in the Orange Blossom Classic.

with almost equal facility, but the offense might end up having most of the fun. Graduation, poor grades and the army middle the line. The big job is to get the defense up to the same potency of the offense. Undoubtedly, there are enough

Those two clubs-Cincinnati and 260 and 270 pound tackles, guards ing purposes assuming that all parts can be kept in working order . . . still, all out efforts were made to congeal the line in spring drills Initia results unfortunately, could portend a long season for the Tigers. While the forward walls seems

only fairly stable, balance keynotes the offense.

Grambling's biggest asset is the leadership genius and brilliant passing of All-American candidate James Harris, Marris' performance under pressure is fully appreciated by scouts who tab him a 'can't

miss" prospect in bold type.

He is seldom dismayed and his throwing could make most teams potent in the extreme. Last fall the rangy 210 pounder

passed for 1,346 yards and 17 touchdowns. His top receiver is Charlie

Joiner, a dandy 185 yound senior flanker. Joiner caught 36 passes of 492 yards and is considered the area's most dangerous and dependable receiver.

Fullback Henry Jones (235); half

backs Ben Stephens (186); Coleman Zeno (205); Alvin Richardson (190); Frank Lewis (185); Virgil Robinson (186); Hilton Crawford (195); Willie Armstrong; (215); and fullback Terry Williams (220), will see that the running attack is adequately handled. Captain Richard Lee, a 265

pound tackle murdererous at pressuring a passer and thwarting a rush, should add All-American lus ter to the main target area for im-

provement.
The line figures to recover some of its form with Clifford Gasper (285); John Gee (265); Bennie Tay lor (325); Allen Montgomery (225); George Muse (220); Edward Wat-son (220); John Mendenhall (215); Samuel Wallace (210), and Billy Manning (230) around for steady

purpose.

Chaches throughly expeded offensive and defensive combinations in spring drills and a further probe will be in early fall sessions to minate problem spots.

While the situation is not dras-tic, special efforts will be made to see that the deep secondary comes through admirably.

Hawks' Contract Jim Davis, a 6-91/2, 240-pound center with "unlimited potential," agreed to terms with the Atlanta Hawks, it was announced today

Davis is the sixth veteran to agree to terms with the NBAA club for the coming season. Jim is a key man in our plans for the coming season," Hawk Coach Richie Guerin said. "He will see much more service this year as

for the rough board play in the

NBA and was released. However, Guerin had seen Davis and I liked what he saw so the Hawks picked up the Indiana native. Davis was sent to Sunbury of the Eastern League. Davis developed in two years into an allstar Eastern League center and mast season was brought back to the Hawk rookie camp.

Instead of that unagressive 196 pounder, Davis had developed into a tough, 6-91/2, 240 pounder and he was the outstanding player in the 1967 rockie camp.

"Jim Davis is one of the most enthusiastic players I've coached," Buerin said. "He asked to come into our rookie camp this past June and worked hard throughout the week.

"And recently I heard from him and he is requesting to come to our pre-season camp along with the rookles on Sept. 9. You can not ask for much more out of a player.". Davis impressed observers throughout the 1966 rookie camp. He

played hard for 19 minutes in the rookie game and finished as the

leading scorer with 24 points and the top rebounder with 17. Davis will report to Atlanta on Sept. 9 along with the rookies as the Hawks open their 1968 preseason sessions at Alexander Memorial Coliseum. Other veterans are not required to be in camp un-

"I have loved every moment of this work," said Miss Watson, "for it has given me a chance to assist children in need. It has given me an insight into just what can be done for them and helped me to realize it is possible to succeed in spite of obstacles." Assisting Miss Watson was Leon

Carlton, a native New Yorker and 1958 graduate of Clark College, who is a teacher in the Atlanta school system and a coach in his spare

"Out of this 10 weeks with the Neighborhood Youth Corps," Mr. Carlton said, "I have gained experience which would not have been possible in the classroom. I have been able to observe the children in a relaxed atmosphere and thus to build a close relationship I would not otherwise have had. This summer program, with its supervised recreation, has been most worthwhile for it has turned the young people's leisure time into more meaningful channels."

Aides accompanying the young people to the Depot were Jacqueline Fisher, Barbara Brown, Wanda Davis, Synthia Harper, Diana Lucas, Barbara Render, and Floree Harris, and Charles Edmondson.

candidates with promises of delivering the Negro vote along with violence and intimidation were cleplored here Saturday in a declaration issue by an ad hoc committee of various community leaders.

In a strongly-worded declaration of principles on fair political practices in Atlanta, city, county, and state authorities were urged to take the necessary steps and deal with illegal, dishonest and immoral political campaign practices reportedly on the upsurge and laid to certain individuals and organi-

The declaration, endorsed by a cross section of Negro leaders as a guide to voters, apparently is intended as a warning to voters and candidates to be cautious of "some people representing themselves as brokers of Negro votes marketable on a controlled basis", and to insure free and fearless elections for both candidates and voters.

The document comes almost two weeks after the Westside campaign office senatorial candidate Charles Weltner was burned, and after several other candidates reported being either intimidated or approached for funds for endorse-

At least five indictm declaration points to "viole intimidation, dishone ous practices to deceive and wink" unsuspecting voters, "cloak and dagger" manipulation to offer Negro votes to the highest bidder, and campaign tactics which degenerate to character assastination and race bating.

Noting that even sincere and fair political contests often leave communities bitterly and factional antagonistic, and pointing out that fear and harrassment in present election practices stifle honest government, the declaration call for committed individuals and groups to ban together in non-portiss programs to intensy voter
