We Wish For Ike
A Speedy Recovery

We're with millions of other Americans in expressing regret that through President Eisenhower has suffered another heart attack which shows seriously at the Army Hospital in Washington. We all understand the great service this American hero has rendered his country, both in war time and in peace.

As long as he is 78 years, we wish him a speedy recovery. Our country is still confident with many more years to come of health and vitality, and he can and should recover and serve the best interest of the nation.

It is not a wonder that President Johnson might have caught it's heart attack when the letter read to his California residence.

Not long ago a Gallup Poll revealed that the main American issues were the former President Dwight D. Eisenhower.

And we remember him as making the most critical note that the Republican Reform when he went to the D.C. National Park in 1957 that upheld the federal court in a desegregation ruling. The court overruled a city and misdemeanor conviction for the right of all people are involved.

Other incidents followed his president in such dangerous situations.

People of every nation on the exit of a departure site in the Korean War in 1952.

A year and a half after the retirement of the President he was boarding the plane for a long trip.

But the is still greatly admired by the American people and he is still regarded by his countrymen as a great conservative service in a leader. And it would be well that the public who thought he is a great leader has a permanent different upholding the happy work of politics and humanitarianism, that tends to be the most concerned by some of our problems.
