Freedom Center's Backers Seeking **Additional Land**

The Memphis chapter of the National Business League has approached the Memphis Housing Autherity for help in the League's quest to develop new business and industrial ventures by Negro Mem-

Orelle Ledbetter, executive di-rector of the Housing Authority, said several ideas in regard to avallable land were discussed with Lawrence S. Wade, chapter vice

"With some exceptions, land in Urban Renewal areas is committed," Mr. Ledbetter said. "It was the exceptions which we discussed with Mr. Wade and other officials of the League. We pointed out what land could be available for business development, and Mr Wade took the information und advisement."

mr. Wyge's organization has anregiment plans for constructing 'Freedom Center,' a shopping plane which will be built exclusively for businesses owned by Negroes or which have Negroes as business

Leona... J. Small Jr., director of the League's Project Outreach, sa'd a by-product of such ventures will be increased employment. Mr. Wade told Housing Authority officia's that his group now wants to make plans for ventures similar to Freed m Center. "However, we have come face-to-face with the unavalishlity of land in the central part of the city which we could afford to buy," he sa'd in explaining his interest in Ur-ban Renewal land.

Mr. Ledietter cited several par-

cels of improved land in the Court Avenue III Urban Renewal Project area, which had been advertised for sale but which attracted no bidders, as possibly being of interest to the League.

He reminded Mr. Wade that lend in other renewal projects is yet available for disposition end that work to reclaim it may take as much as two years after the Federal government approves

Mr. Wade sa'd the League or ifs suporters probably will be interested in bidding on these par-cels at that time. Meanwhile, "we are going to continue our search for land that can be made avail-able almost immediately. Many people have expressed interest in nelping us to success in this project, and we can't afford to over-look any possibility," Mr. Wade

They believe that all Christians must be ministers.

Thus it is that when Memphis Witnesses are joined by thousands of other Witnesses at their convention here July 25-28, it really will be a convention of ministers. In fact, some describe the fourday gathering as "an advance course in the ministry," because the program is aimed at showing the Witnesses how better to accomplish their work.

Since all of them are ministers, some questions naturally arise. Is anyone in charge? Are all of them paid salaries? How can parents with family responsibilities care for their ministerial dutes? In the 13 Memphs and West

Proposal for the Repeal of the partment. Sanitation Fee of The City of Memphis.

On behalf of the Bluff City Council of Civic Clubs and the Kennedy Democratic Organization, each a separate body; and each in early respectively, Sunday July 14, 1933 and July 15 1938, but both agreed with the following proposals.

1. That the Sanitation Fee is a forced tax in the guise of a fee, therefore it is felt to be unconstitutional

2. The tax is exhorbitant, there-

fore should be repealed at the earliest possible date. 3. Before the tax was levied, it should have been referred to public referendum.

4. The tax is a misnomer; on the ordinance it is called a City Service Fee; on the Memphis Light Gas and Water Bill it is called a "Sanitation Fee."

5. It is generally felt that the fee is a penalty imposed upon the Sanitation Workers for striking, and their supporters.

The MEMPHIS WORLD is an independent newspaper — non-sectarian and non-partisan, printing news unbiasedly and supporting these things it believes to be of interest to its readers and opposing those things against the interest of its readers

It is Indeed gratifying to note the marvelous stride of the United Negro College Fund, from a small acorn in the woods, to one of the most powerful agencies in the area of education.

The fund was started on an unselfish basis. The most important thing in its scope to make a success was getting in with great philantropists and foundation-minded people in behalf of those small educational units unable to make "their great commission known" in the big circles such as used to give heavy contributions to Booker T. Washington and his Tuskegee project life worse evils entered and the and other colleges as could claim the ear of those who were able last state of that poor cerature to reach those contributors who gave most.

The United Negro College Fund was organized to help others who deserved, but couldn't rise high enough to reach the big giving ears.

The climax this year went over the top in grand style.

The big contributions of many friends and firms showed much increase over previous years. The Sears-Roebuck Company, a neighbor, was possibly the largest contributor for the year for this city. The Sears Foundation gave \$10,000, with a notation that a larger sum would be forthcoming in the next drive.

It is marvelous in that the Fund is gaining such prestige as to corral heavy donors.

When the chips are all down there will appear another release showing how the fund fared in full.

We congratulate those who manned the project this year. Dr. John Middleton, president of Morris Brown College, who headed the Atlanta campaign, and the other local college presidents are to be commended for their efforts in the drive.

Please read Matt: 12:43-45. Here is a human being who is possessed of evil spirits. Now this person that Jesus had in mind had gotten rid of the evil spirits, evil thoughts, evil passions. He had cleaned house, but he had not replaced the evil with good, and thus it came about that into this empty was worse than the first.

Negative goodness is never enough. One may say I don't do that: But what do you do? Answer: "Nothing." When one squares away for a finer life, the getting rid of evil is but half the process. The evils have been driven out of the house of life but these evils must be replaced with good immediately.

Clearing the weeds out of a field and putting the ground in shape is good but to stop there, would be to invite a big crop of weeds and what-nots

An empty house, however clean, invites tramps, marauders, Etc. An empty life, however renovated, is open to the intrusions of uninvited guests who will make it a place of debauchery. He walked a block beyond where it was parked and had to retrace his steps until he found it.

He was trailed all the way by the demonstrators, who demanded to know when he would carry out the far-reaching Supreme Court ruling knocking down Alabama's law barring child welfare payments if there is a "man in the house."

B. F. Goodrich Slated To Finance Homes

AKRON, OHIO -- The B. F. Goodrich Company announced to-day that it had approved plans for a \$165,000 financing project in-volving construction of 10 homes for low-income families located on Biruta avenue and White street, off Akron's Wooster avenue. This is the first project financed through a special B. F. Goodrich financing

The B. F. Goodrich financing plan was originally anounced late in May by the company's president, Harry B. Warner. The program provides a several hundred thousand dollar revolving fund, interest free, serving as "seed money" to help financing housing for low-income families in Akron.

It further provides builders with interim financing to purchase land and provides a base from which conventional financing can be obtained from banks or government

Builders who will receive the money to start construction of the homes are Gillespie-Pilcher Building & Investment Company, Inc. and Russell Mazzola, both of Akron. The 10 homes are of two similar styles -- four of them prefabricated and six of convention construction. Both styles have three bedrooms, living room, kitchen, dining area, bath and a full basement. Nine of the homes will be located on Biruta avenue and one on White Street.

In this case, B. F. Goodrich will supply the basic financing needed to build the homes. After they are built, they will be bought by the Akron Metropolitan Housing Authority (AMHA). AMHA will in turn, rent the homes to low-income families for approximately \$57 per month.

Money in the fund may be used for new housing and rehabilita-tion of existing housing as agreed

WASHINGTON - (UPI) - Treaury Secretary Henry Fowler said Monday he would undergo longdelayed surgery about Aug. 1 for removal of his gall bladder.

Fowler told a news conference: "One of the first rules of a secretary of the Treasury is that he must look confident whether he is confident or whether he wants to jump out of a window.

As a measure of my confidence in our economic situation, I am scheduling the operation for Aug. 1." Fowler said he would be away from his desk for about five weeks.

Sure Cure For Wash Day Blues

There's only one cure for "Wash-day blues:" a home laundry cen-

It need not be an elaborate setup, although it should be located in an area large enough to accommodate necessary facilities, in-cluding enough starage and work

Perhaps a little-used guest room or gararge or an empty basement can be converted into a home laundry. If this is not feasible, a large et can be outfitted with wash er dryer, shelves and drop-leaf counter on the back of the door. Adequate plumbing is the most important consideration in planning a laundry center. But just as important is the choice of sur-

facings for walls, floor and counter tops.

A material such as cermanic file is ideal. It has all the necessary functional features: water and moisture resistance, stain resistance and durability. And it has a decorative diversity that can give the laundry room a cheery atmosphere.

"They've been disenfranchised" he declared. And he said that there are no Negro matrons in the jail. "My intention when I take office Jan. 1, to to have more Negro deputies, and Negro Matrons. I contend that if you have more Negroes patrolling their area it will cut down on crime."

He also said that he was consindering having a special sheriff's youth corps to aid in eliminating juvenile delinquency, and that he would consult each school in setting up a group at the school.

Craig, who served as Grand Dragon of the Klan for seven years said that he would use as part of his platform a training program for the 3,000 honorary deputies, since these deputies get no training or instructions.

Craig further stated that he was sympathetic of any group seeking out their aims and goals as long as its in a lawful manner. He also added that he would not hesitate one minute to arrest a Klansman who has committed a crime.

Air Piracy In Highjacking

By CHARLES E. TAYLOR

MIAMI — (UPI) — A bespectacled former mental patient who once volunteered to police he felt a compulsion to shoot someone was charged Saturday with the air piracy of a Delta Airlines jet, a orime punishable by death.

Oran Daniel Richards, 33.

Springfield. Ohio. Fork-lift operator, was nervous and had little to say at a hearing before U. S. Commissioner Edward P. Swan.

His bond was continued at \$250. 000 after the formal charge was odged. Swan scheduled a reliminary hearing for Richards next Wednesday.

Richards told Swan he had a \$145-a-week job "but I've probably been fired by now."

SECOND OF DAY The hijacking of the Delta Convair 880 Friday evening as the jet headed from Baltimore to Houston was the second such incident of the day and the eighth hijacking this year.

Congress imposed the death pent alty following a previous series of hijackings in 1961.

Prior to the Delta incident Fri day, a man pulled a gun on char ter service pilot Cletis Massengil shortly after takeoff from Key West and crdered him to fly to Havana The defector, who identified himself on the charter application as Stephen Van Dyk on a Key West hotel register as Leonard S. Bendichs of Williafsport, Pa., hired Massengill's plane for a flight to Miami, He ordered the 35-year-old pilot to head for Havana just after the plane lifted off.

Cuban authorities released the single-engine Cessna 210 shortly after 1 p. m. Saturday and Massengill flew back to Key West, where he was questioned at length by authorities.

The Delta flight involved in Friday's incident carried U. S. Sen. and that the Albany Plant man grams, without regard to race, James O. Eastland of Mississippi and 47 other passengers. It was one of the few cases on record in which a hijacking has been foiled Pilot Capt. Forrest Dines. 49. of Chicago crediated his flight engineer, Glenn Smith, 31, with talking Richards out of going ahead his plan.

Richards gained entrance to the cockpit by leveling a silver plated 45 automatic at stewardess Elaine Hawes.

"We never attempted to jump him. We tried to convince him what he was doing was wrong,'

Smith said. THREW DOWN GUN

Finally, Richards threw down his pistol and Capt. Dines switched his course from Cuba to Miami. There. Richards, a thin man with closecropped hair and glasses, was traen off the plane.

Eastland and a few other passengers also left the plane here, but Dines and his flight crew took the rest of the passengers to Hous-

In Springfield Ohio officials at Columbus State Mental Hospital identified Richards as a man police committed to the institution after he went to them voluntarily and confessed a compulsion to shoot somebody.

Richards was discharged Aug. 31, 1959, following psychiatric sessions and was classified as "improved." He had been working recently as a fork-lift operator for International Harvester.

A woman at the apartment listed as Richards' last known address slammed the door in the faces of newsmen. Other residents of the building said Richards seemed to them "like a normal, average married guy." He has three chil-

Gas Station Games Help The 'Game-Maker' Says Writer

An article in The New Republic magazine today charged that gas station games "aren't doing anyone any good, except the people who make the games."

The article, "Games People Play | major oil companies alone paid at Gas Stations," appears in the \$18 million in fees to game comcurrent (July 20) issue of the na- panies, and a total of \$24 million

Written by author David King it points out many abuses of the games, and charges:

> "They break down dealer-customer relationships, because the customer feels cheated by the low probability of winning, the lowering of service standards, and the rising prices. Even the oil companies lose because they cannot through promotion effect an increase in the overall volume of gasoline bought. Still, no one can quit the race because the other guy may not just like Johnson and Kosygin,"

Author King goes on to say that Rep. John Dingell's (D.-Mich.) Small Business Subcommittee (which is holding hearings on such games as Tigerino, Sunny Dollars, Win-a-Check, etc.) learned that 11

> "The large oil companies," King writes, "do pay to advertise the games, though they've maneuvered the dealers into paying for the games themselves. This is costing the same 11 companies \$44 million. This cost is met by raising the price of fuel oil."

> King goes on to say that "Despite lavish promises the actual chance of winning in a game at the local gas station is dismally small." He notes, "Kays Gary, a newspaperman in Charlotte, N. C., decided it would be a good idea to get all his readers to send in their game coupons (Dino Dollars, Super-Pro, etc), so that he could match them up, or take off the ink, and give the money from the resulting winners to a proposed retarded children's nursery.
