Miss Personality
Will Be Selected

Newspaper Editorial
Has Strong Reaction

ALA NETA, news director of the American Newspaper Publishers Association, in an editorial today, said he was "shocked" at the decision of the city's newspaper to endorse the newspaper editor as Miss Personality of the city.

"I think it is a most unfortunate decision," he said. "The newspaper editor is a public servant, and it is improper for him to be considered for such an honor. The public should not be misled into thinking that endorsements of this nature are a proper function of the press."

The newspaper editor defended his decision, saying it was a "natural" choice.

"We believe the newspaper editor is the best qualified person to represent the city as Miss Personality," he said. "He has long been a leader in the community and is well respected."

City Hall spokesman said the news of the endorsement was "not unexpected." He added, "It is a matter of pride for the city to have such a distinguished representative as Miss Personality."

factions within the convention. The proposition that a certain number of some

attention and criticism from the various states. The new movement has
caused the National Democratic Convention, and the first few days were
considered as having been the most
prominent.

Of all the candidates, the one who has the
Democratic Party firmly behind the ticket, has announced that
they would be in favor of a single candidate for President. The

End Hunger In Biafra
U. S. Leaders Urge

NOW YORK—A plea for an immediate end to the "nullification war" and for the release of all suspected political prisoners, including the Father Flanagan boys, was made today by Dr. William M. Krule, chairman of the Biafran Appeal Committee, in a meeting of the United Nations' Committee on Human Rights.

Dr. Krule said that his group had been working with the United Nations for the release of all prisoners, including the Father Flanagan boys, and had been frustrated.

He also said that the United Nations had not taken the necessary steps to prevent the use of prisoners as "slaves of war." He said that the United Nations' role was to "prevent the use of prisoners as a means of propaganda and to avoid the use of prisoners for political purposes." He concluded by saying that the United Nations should take immediate action to prevent the use of prisoners as "slaves of war."
